

# Food & Beverage Packaging Automation Brief

Synchronize conveyors, batching, and CIP skids with sanitary WEG automation hardware. Pair CFW300 and CFW500 drives with MW500 servos for coordinated motion and throughput. Use PLC500 and TPW HMIs for recipe management, OEE dashboards, and audit trails. Select CSW stainless operators, SRW safety, and washdown-rated enclosures for hygiene. Deliverables cover changeover SOPs, spare kits, and preventative maintenance tasks.
