

# Metals & Material Handling Modernization Brief

Engineer regenerative crane, hoist, and conveyor systems with rugged WEG platforms.  
Specify CFW900 drives with regen units and torque control for cranes and transfer cars.  
Coordinate PLC500 safety, wireless remotes, and condition monitoring for uptime.  
Integrate CW contactors, MPW breakers, and SRW safety for SIL-compliant packages.  
Package includes commissioning scripts, spare assemblies, and retrofit risk logs.
